

The Pink Pad® AIR ASSIST™

New
Product

Safer, Easier Patient Transfer and Trendelenburg
Positioning

Integrating The Pink Pad® into both top & bottom surfaces ensures skin protection, as well as patient stability in both Trendelenburg & reverse Trendelenburg

The Pink Pad® Air-Assist™ (Trendelenburg)

- Lift-free transfer and repositioning for patients of all sizes
- Safely position high-BMI patients while protecting against Hospital-Acquired Pressure Injuries (HAPIs) and nerve damage

“The Pink Pad Air-Assist is the PERFECT solution for our patients and staff. Patients do not move on the Pink Pad until we want them to; at which point it’s very easy to reposition or transfer even our heaviest subjects. I’ll be using this product on all of my patients moving forward.”

—Matthew Davis, MD, Bariatric
Surgery, Memphis, TN
