

Safer Patient Positioning

The Pink Pad[®] Biodegradable

The Safest, Most Clinically Proven and Preferred Trendelenburg
Positioning Solution, Now Biodegradable!

Independent Laboratory Tested & Certified to ASTM D5511 Standards for Biodegradability

// “Our hospital system is working together to achieve ambitious environmental goals. I have been searching for a solution that would help our department contribute to this broader effort. We found something tremendously helpful with the Pink Pad Biodegradable. It gives us everything from a patient-safety standpoint, and now delivers a significant “green” advantage. Win-win!”

BreAnn Brong - OR Manager
Tacoma, Washington

ASTM D5511

Introducing The Pink Pad Biodegradable

- The only product of its kind to meet ASTM Standards for Biodegradability
- The most innovative, patented, clinically-preferred solution for increasing patient safety in the Trendelenburg position
- Safer for patients; safer for the environment!

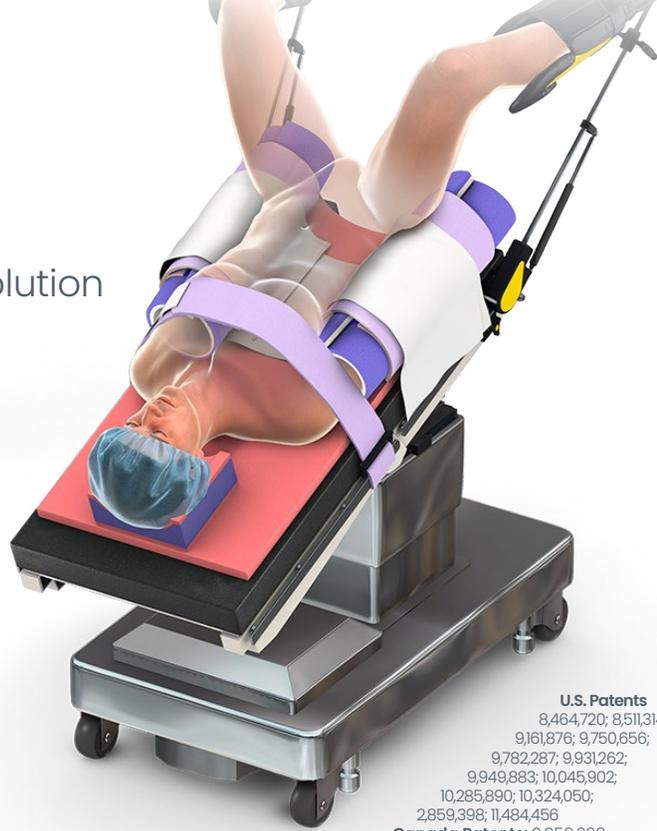

The Pink Pad[®]

The Safest, Most Clinically-Proven and Preferred Trendelenburg Positioning Solution

TRENDELENBURG

Maximize Safety in Trendelenburg

The Pink Pad Trendelenburg Positioning System is an innovative, patented, clinically-preferred solution for increasing patient safety in Trendelenburg—preventing unwanted patient movement, while protecting nerves and skin against Hospital-Acquired Pressure Injuries (HAPIs)

Safely Prevents Patient Sliding

Overcome the positioning challenges of steep Trendelenburg; even with heavy, high-BMI patients

Utmost Protection Against HAPIs

Unique, immersive, enveloping materials are breathable, soft, moisture-wicking, and insulative

Proven Pressure Reduction

In a recent study, subjects on the Pink Pad ranging from 16-54 BMI (35.5 BMI avg.) saw a 43% peak-pressure reduction

Significant Time Savings

Setup time under one minute could save your OR up to \$1,900 per procedure (value of OR time: \$100/minute)

A Material Difference

Clinical leaders in the world's top hospitals trust the Pink Pad's unique, HAPI-reducing material to maximize patient safety in steep Trendelenburg

New
Product

The Pink Pad[®] AIR ASSIST[™]

Safer, Easier Patient Transfer and Trendelenburg Positioning

TRENDELENBURG
& Reverse Trendelenburg

Integrating The Pink Pad[®] into both top and bottom surfaces of an air-assisted transfer system ensures skin protection, as well as patient stability in Trendelenburg and reverse Trendelenburg

- Lift-free transfer and repositioning for patients of all sizes
- Safely position high-BMI patients while protecting against Hospital-Acquired Pressure Injuries (HAPIs) and nerve damage

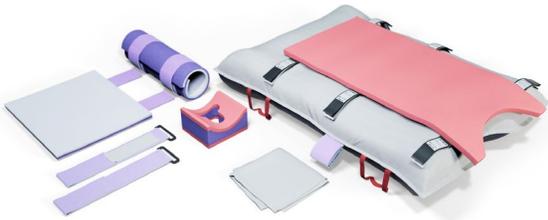

“The Pink Pad Air-Assist is the PERFECT solution for our patients and staff. Patients do not move on the Pink Pad until we want them to; at which point it’s very easy to reposition or transfer even our heaviest subjects. I’ll be using this product on all of my patients moving forward.”

—Matthew Davis, MD, Bariatric Surgery, Memphis, TN

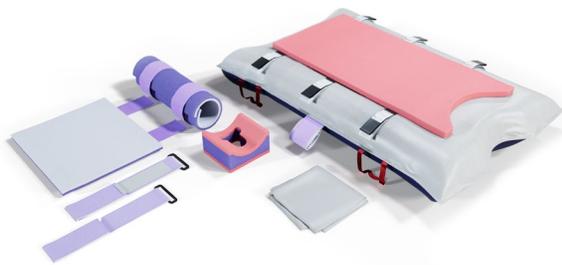

Pink Pad® Air-Assist Kits

TRENDELENBURG

The Pink Pad® – One Step

A Safe, Streamlined, and Complete Trendelenburg Positioning System

- Establish a best practice standard-of-care¹ with a single-step, streamlined patient positioning system
- Set up time under one minute saves your hospital up to \$1,900 per procedure*

*Based on OR costs of \$100/minute^{2,3}, and 20-minute average set up times for competitive systems

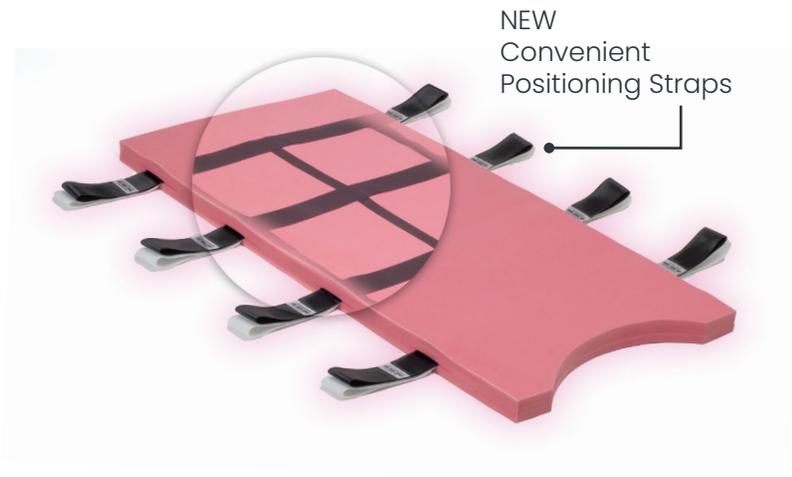

1: Journal of Gynecologic Surgery; A Prospective Randomized Trial of Antislip Surfaces During Minimally Invasive Gynecologic Surgery
 2: OR Management News: What Is a Minute Worth in the OR?
 3: Critical Care Medicine: Volume 47 - Issue 1 - p 41

The Pink Pad® – Safe Assist

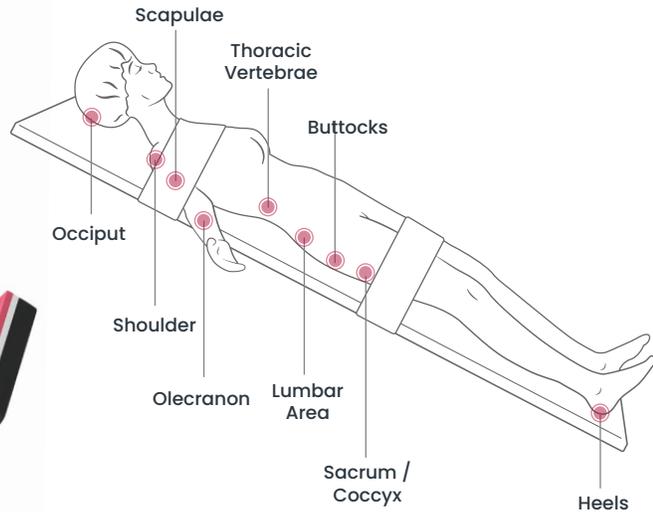

The Safest, Most Clinically-Proven and Preferred Trendelenburg Positioning Solution – Now Easier to Use

- Easily transfer and position patients with integrated straps
- Safely prevent patient sliding, HAPI formation, and nerve damage in Trendelenburg positions
- Establish a clinical-evidence based best practice for reducing peak pressure and preventing unwanted patient movement

The Pink Reverse-T Kit™

Reverse Trendelenburg Positioning System

Kit #40640 shown

Canada Patents: 2,859,398
Additional Patents Pending

- **Safely Prevent Sliding**

An innovative seat contour made of high-density, supportive material ensures anatomically correct positioning, while skin-friendly PinkProtect™ safely prevents unwanted movement in reverse Trendelenburg

- **Reduce Risk of HAPIs**

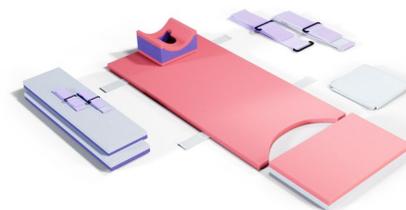

Unique materials provide complete protection against HAPIs; minimizing non-reimbursable care costs by avoiding preventable injuries and CMS Never-Events

- **Complete Coverage for Every Patient**

The Pink Reverse-T Kit™ requires less than one minute to set up. A single-use design minimizes cross-contamination risk and improves OR turnover times.

“With patients weighing 450lbs or more, and BMIs in excess of 65, safe positioning can be a real challenge. Xodus Medical’s Pink Reverse-T Kit not only prevented our patients from sliding, but did so safely.”

— Alicia C, RN, BSN,
Surgical Services Manager, Hartford, KY

The Pink Hip Kit™

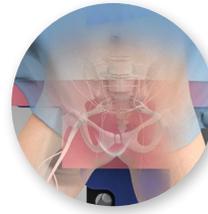

Postless Positioning System

HIP PROCEDURES

Pink Hip Kit:
Smith +
Nephew
#72205289

Pink Hip Kit:
Hana
#72205682

Eliminate Nerve Injury

Safely and effectively position patients without the need for a perineal post

Protection from Head to Toe

Maximize traction as well as protection against HAPIs with Hip Arthroscopy Boot Liners

- **Safer Surgery**

Go Postless! The Pink Hip Kit safely provides the counter-traction required to offset the force of hip distraction—securing the patient without leveraging the perineum against a rigid post.

- **Reduced Risk of Hospital-Acquired Pressure Injuries (HAPIs)**

The Pink Hip Kit features a breathable, moisture-wicking, soft, enveloping, immersive, and pressure-distributing material that interfaces with sensitive patient areas. This unique material provides an ideal balance of skin-protection properties that reduce the risk of HAPIs.

- **Streamlined Procedures**

A postless approach requires shorter traction time, eases hip distraction, improves C-Arm visualization, and provides a greater range-of-motion for more complete dynamic exams—all without changes to your surgical technique

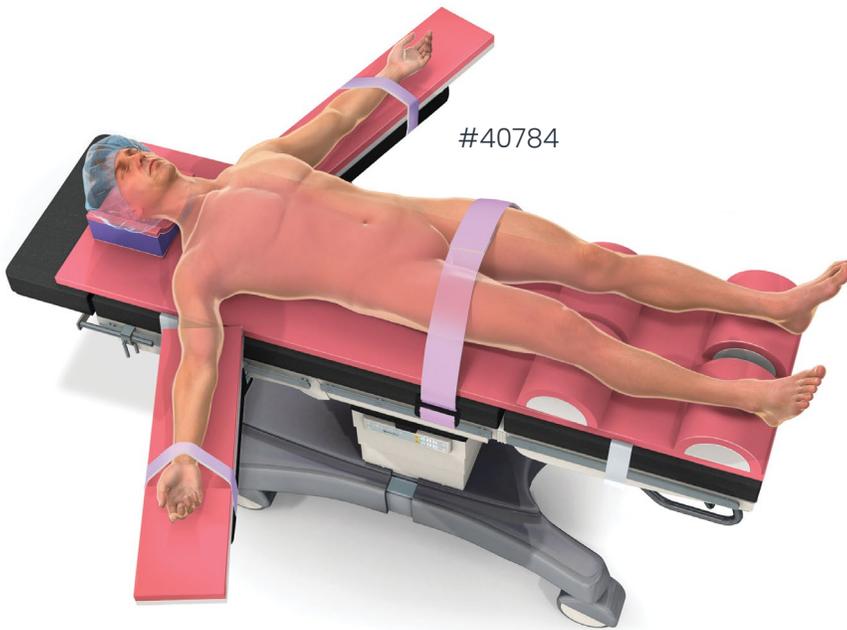

“I have fully adopted Pink Hip Kits as my preferred method for achieving postless hip distraction. Beyond the patient safety advantages of the surgical technique, I am confident that the Pink Hip Kit itself has a powerful, positive impact on my patients’ outcomes.”

—Mia S. Hagen, M.D.
Associate Professor, Department of Orthopaedics & Sports Medicine
Associate Program Director, Orthopaedic Surgery Residency
Team Physician, Washington Huskies

The Pink Lat Pack™

A New Standard for Safe, Effective, and Efficient Lateral Positioning

LATERAL DECUBITUS

Adjustable Lateral Head Positioner

Skin-friendly materials, adjustable height, and an ergonomic design make this the ideal lateral head positioner

Multi-Angle Wedge

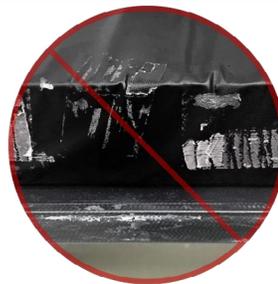

35°, 55°, and 90° inclination options optimize positioning for every patient and procedure

Breathable, Skin-friendly, Moisture-wicking Material

Safety Maximized

Increase patient safety with DermaProx™ and PinkProtect™: breathable, moisture-wicking materials that gently immerse and envelop areas prone to pressure injury

Standard of Care Emphasized

No customization required. Regardless of weight or BMI; The Pink Lat Pack™ provides a safe, consistent standard of care for every patient, in every procedure, every time

Efficiency Optimized

In clinical trials, an average of 15-20 minutes were saved during setup. When necessary, The Pink Lat Pack™ makes repositioning faster, safer, and easier.

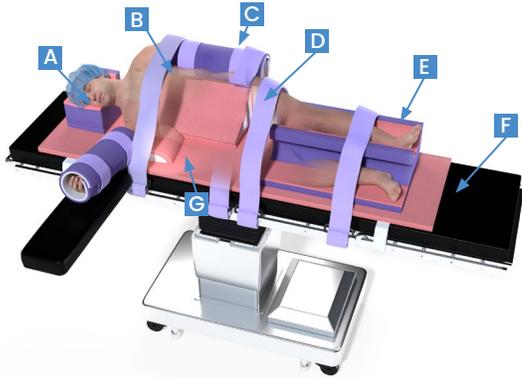

“For years prior to the introduction of Pink Lat Packs, we at Yale New Haven Hospital, relied on reusable devices for patient positioning in the lateral-decubitus position. Interrupting procedures to reposition patients could negatively impact both patient safety and surgical efficiency. Pink Lat Packs are now an important component of our efforts to safely secure our patients, protect their skin and, ultimately, improve surgical outcomes.”

— Wilma Flores, BSN, RN, CNOR
 Perioperative RN Specialty Coordinator, Transplant & Vascular Service
 Yale New Haven Hospital
