

The Pink Pad[®]

The Safest, Most Clinically Proven
& Preferred Trendelenburg Positioning Solution

- **Prevent Patient Sliding**

The Pink Pad is the safest, most effective solution for reducing unwanted movement in steep Trendelenburg; even for heavy, high-BMI patients

- **Reduce Risk of Hospital Acquired Pressure Injuries (HAPIs)**

The Pink Pad's unique, open-cell material is breathable, moisture wicking, insulative, soft-to-the-touch, immersive, and enveloping. **Independent studies prove that the Pink Pad reduces erythema** compared to other positioning solutions.

- **Eliminate Brachial Plexus Injury**

The Pink Pad is clinically proven to reduce post-operative pain in surgical patients. It functions without placing pressure on the head, neck, or shoulders; thereby eliminating the risk of preventable nerve injuries.

U.S. Patents:
8,464,720; 8,511,314;
9,161,876; 9,750,656;
9,782,287; 9,931,262;
9,949,883; 10,045,902;
10,285,890; 10,324,050;
11,484,456; **Canada Patents:**
2,859,398
Additional Patents Pending

“Patients on the Pink Pad had significantly less displacement with Trendelenburg and faster positioning compared to the other surfaces.”¹

¹ Journal of Minimally Invasive Gynecology 27, S1-S82

Prevent Sliding

Reduce HAPI Risk

Avoid Nerve Injury

The Pink Pad EXT™

Full-Length Protection for *Supine* Trendelenburg Positioning

New Biodegradable Option #40678

- (1) Biodegradable Pink Pad EXT
- (1) PinkProtect™ Head Positioner with Biodegradable Top & Bottom Layers
- (2) Single-Use One-Step™ Arm Protectors with DermaProx™ Layer
- (1) Lift Sheet
- (2) Single-Use Body Straps

Proven Pressure Management

In a study of 15 subjects ranging from 16–54 BMI (average BMI of 35.5), the Pink Pad provided an average peak pressure reduction of 43%.

The cost of treating Hospital-Acquired Pressure Injuries (HAPIs) is over \$1 billion annually, with increased hospital stays at nine days (on average) and non-reimbursed treatment costs potentially exceeding \$40,000 per patient.

Official **AORN** Guidelines Cite Research:

- Demonstrating the use of the Pink Pad resulted in “significantly less [patient] movement at all anatomical landmarks.” *Section 5.6 - Positioning the Patient*
- That establishes obesity as a “major predictor of movement” in Trendelenburg positions, where “researchers concluded that patients on the Pink Pad had significantly less displacement.” *Section 5.6 - Positioning the Patient*

The Pink Pad[®] Biodegradable

The Safest, Most Clinically Proven and Preferred Trendelenburg Positioning Solution, Now Biodegradable!

Independent Laboratory Tested & Certified to ASTM D5511 Standards for Biodegradability

“Our hospital system is working together to achieve ambitious environmental goals. I have been searching for a solution that would help our department contribute to this broader effort. We found something tremendously helpful with the Pink Pad Biodegradable. It gives us everything from a patient-safety standpoint, and now delivers a significant “green” advantage. Win-win!”

BreAnn Brong – OR Manager
Tacoma, Washington

ASTM D5511

Introducing The Pink Pad **Biodegradable**

- The only product of its kind to meet ASTM Standards for Biodegradability
- The most innovative, patented, clinically-preferred solution for increasing patient safety in the Trendelenburg position
- Safer for patients; safer for the environment!

Multiple Positioning Systems Feature the Biodegradable **Pink Pad**®

Our Most Popular Solution:

#40695 - Biodegradable Pink Pad XL - Trendelenburg Positioning Kit

- (1) Biodegradable Pink Pad® XL
- (1) Skin-Friendly Body Strap (pair)
- (1) PinkProtect™ Head Positioner with Biodegradable Top & Bottom Layers
- (1) Lift Sheet
- (2) Single-Use, One-Step™ Arm Protectors with DermaProx™

Reduced Carbon Footprint

In addition to achieving lab-certified biodegradability, Xodus Medical is focused on reducing manufacturing and supply-related carbon emissions.

The Pink Pad is proudly Made in the USA, and distributed via an increasingly sustainable supply network. These efforts help us achieve unique, but associated goals that include maximizing product quality, a more carbon-neutral manufacturing future, and making surgery safer.

The Pink Pad® AIR ASSIST™

New
Product

Safer, Easier Patient Transfer and Trendelenburg
Positioning

Lift-Free Transfer and Repositioning for Patients of all Sizes

- Integrating the Pink Pad® into both top and bottom surfaces of an air-assisted transfer system ensures skin protection, as well as patient stability in Trendelenburg and reverse Trendelenburg
- Safely position high-BMI patients while protecting against Hospital-Acquired Pressure Injuries (HAPIs) and nerve damage

Proven Solutions that Help Patient Safety Advocates Meet AORN Guidelines & Recommendations

- "Moving patients can also contribute to injury. When moving patients, use assistive technologies to help prevent staff injuries and keep patients safe. These might include air-assisted transfer devices..." *AORN 9/2023*
- "Select patient lift equipment that minimizes the physical forces required to move the patient. [Recommendation]" *Section 4.3.1*

Pink Pad® Air-Assist Kits

Solutions for Trendelenburg Positioning

#40660 Trendelenburg

- Pink Pad® Air-Assist™ Trendelenburg
- One-Step™ Arm Protectors
- PinkProtect™ Head Positioner
- Skin-Friendly Body Straps
- Lift Sheet

#40667 Trendelenburg +

- Pink Pad® Air-Assist™ Trendelenburg +
- One-Step™ Arm Protectors
- PinkProtect™ Head Positioner
- Skin-Friendly Body Straps
- Lift Sheet

#40669 EXT + Trendelenburg

- Pink Pad® Air-Assist™ EXT + Trendelenburg
- One-Step™ Arm Protectors
- PinkProtect™ Head Positioner
- Skin-Friendly Body Straps
- Lift Sheet

The Pink Pad – Safe Assist™

The Safest, Most Clinically-Proven and Preferred Trendelenburg Positioning Solution – Now Easier to Use

#40613

“The Pink Pad – Safe Assist made it safer and easier for our staff to position and move patients, especially those with a higher BMI...”

- Kate Schuh White, MD, FACOG - OB/GYN

- Safely prevent patient sliding, HAPI formation, and nerve damage in Trendelenburg positions
- Establish a clinical-evidence based best practice for reducing peak pressure and preventing unwanted patient movement
- Easily transfer and position patients with integrated straps

The Pink Pad – One Step™

A Safe, Streamlined, and Complete Trendelenburg Positioning System

To ensure safe patient positioning in Trendelenburg, leading ORs trust the Pink Pad. In terms of convenience, our new One Step solution takes the Pink Pad to a whole new level!

#40627

Additional kit components include a skin-friendly body strap & an optional PinkProtect™ Head Positioner

- **Establish a best practice standard-of-care¹ with a single-step, streamlined patient positioning system**
- **Set up time under one minute saves your hospital up to \$1,900 per procedure***
*Based on OR costs of \$100/minute^{2,3}, and 20-minute average set up times for competitive systems
