Non-Drip Disposal

The Sahara mat features a polymer material that enhances absorption and prevents fluid from dripping.

Camel® Cord Cover

Two peel strips on the back reveal residue-free adhesive that secures the cover to the floor. This feature safely secures cords and decreases the risk of trips and falls. Available in two sizes.

Advanced Fluid Retention Technology

Fluid-absorbing polymer traps liquid for easy and convenient clean up.

The Industry's Only Anti-Fatigue Mat With Fluid Absorption

The Oasis™ Mat deters the onset of muscle fatigue and helps keep hospital floors clean, dry, and safe.

At the core of the Oasis, between two layers of shock absorbing, closed-cell foam, is the same ultra-absorbent material featured in the Camel™ Mat. An impermeable barrier prevents fluid from reaching the hospital floor, while a non-slip backing keeps the mat securely in place.

Stacking up the Protection

- Maximize performance by decreasing muscle fatigue
- Improve infection control by reducing exposure to contaminants
- Increase safety by minimizing possibility of injury from slips and falls
- Save money by reducing turnover time
