Non-Drip Disposal

The Sahara mat features a polymer material that enhances absorption and prevents fluid from dripping.

Advanced Fluid Retention Technology

Fluid-absorbing polymer traps liquid for easy and convenient clean up.

Camel® Cord Cover

Two peel strips on the back reveal residue-free adhesive that secures the cover to the floor. This feature safely secures cords and decreases the risk of trips and falls. Available in two sizes.

The Industry's Only Anti-Fatigue Mat With Fluid Absorption

The Oasis™ Mat deters the onset of muscle fatigue and helps keep hospital floors clean, dry, and safe.

At the core of the Oasis, between two layers of shock absorbing, closed-cell foam, is the same ultra-absorbent material featured in the Camel™ Mat. An impermeable barrier prevents fluid from reaching the hospital floor, while a non-slip backing keeps the mat securely in place.

Stacking up the Protection

- Maximize performance by decreasing muscle fatigue
- Improve infection control by reducing exposure to contaminants
- Increase safety by minimizing possibility of injury from slips and falls
- Save money by reducing turnover time
