

The Pink Lat Pack™

A New Standard for Safe, Effective, and Efficient Lateral Positioning

Multi-Angle Wedge

35°, 55°, and 90° inclination options ensure ideal positioning for every patient and procedure

Adjustable Lateral Head Positioner

Skin-friendly materials, adjustable height, and an ergonomic design make this the ideal lateral Head Positioner

Breathable, Skin-friendly, Moisture-wicking Material

Safety Maximized

Increase patient safety with DermaProx™ and PinkProtect™: breathable, moisture-wicking materials that gently immerse and envelope areas prone to pressure injury.

Standard of Care Emphasized

No customization required. Pink Lat Packs, regardless of weight or BMI, provide a safe, consistent standard of care for every patient, in every procedure, every time.

Efficiency Optimized

In clinical trials, an average of 15-20 minutes were saved during setup. When necessary, The Pink Lat Pack™ makes repositioning faster, safer

“HAPI occurrence affects 2.5 million patients per year, adding more than \$43,180 per patient on average in-hospital costs.”

(October 2014. Agency for Healthcare Research & Quality)

“Prior to working with Xodus Medical, a solution for lateral positioning that was both safe and efficient simply did not exist. The Pink Lat Pack combines skin-friendly materials with smart configurations that ensure a consistent standard of care. They save our OR a significant amount of time, especially during setup. Most importantly, the safety of our patients is better than ever.”

— Dr. Domenico Savatta, MD
 Chief of Minimally Invasive & Robotic Adult Urologic Surgery
 New Jersey

Pink Lat Pack™ Available Configurations
