

Patient Safety Innovations

A Sharper View of Patient Safety

Enhanced Intraoperative Laparoscope Cleaning & Defogging

LAPAROSCOPIC

- Easily placed on any sterile field for streamlined cleaning exchanges. Can be connected directly to 5mm and 12mm trocars.
- Eliminate the need to pass instruments to-and-from the surgical site, reducing SSI risk and improving surgical efficiency.

- On/Off switch allows battery life to be synced with delayed cases; minimizing the need for multiple units per procedure.
- Thick, scratch-free cleaning material protects sensitive, costly laparoscope lenses.

Better Visualization

More effective cleaning and defogging for improved, longer-lasting visibility.

Perfect Temperature

Safe for use with modern, robotic laparoscopes. Thermostatically-maintained temperatures extend battery life and improve performance.

Eco-Friendly

Environmentally friendly, compact design. Up to 65% less packaging by weight. Easily removable batteries for recycling.

The Total Package

Every detail considered. Everything included. Unique Trocar Swabs eliminate retained-instrument risk. Extras just in case.

Product

Pink: The New Green

The Pink Pad[®]. Now **Biodegradable**.

The safest Trendelenburg patient positioning system is now biodegradable; another first from Xodus Medical. With nearly a dozen US Patents and counting, Pink Pad solutions from Xodus Medical are simply first in patient (and environmental!) safety.

Independent Laboratory Tested & Certified to ASTM D5511 Standards for Biodegradability

Our Most Popular Kit #40695

Xodus Medical proudly supports the [AORN Tool Kit](#) for the Prevention of Perioperative Pressure Injury. Scan to view up-to-date patient safety recommendations or visit xodusmedical.com/AORNtoolkit

The Pink Pad®

The Safest, Most Clinically-Proven and Preferred Trendelenburg Positioning Solution

Patent No. 8,464,720; 8,511,314; 9,161,876; 9,750,656; 9,782,287; 9,931,262; 9,949,883; 10,045,902; 10,285,890; 10,324,050; 2,859,398; 11,484,456

TRENDLENBURG

Maximize Safety in Trendelenburg

The Pink Pad Trendelenburg Positioning System is an innovative, patented, clinically-preferred solution for increasing patient safety in Trendelenburg—preventing unwanted patient movement, while protecting nerves and skin against Hospital Acquired Pressure Injuries (HAPIs).

Safely Prevents Patient Sliding

Overcome the positioning challenges of steep Trendelenburg; even with heavy, high-BMI patients.

Utmost Protection Against HAPIs

Patented, immersive, enveloping materials are breathable, soft, moisture-wicking, and insulative.

Proven Pressure Reduction

In a recent study, subjects on the Pink Pad ranging from 16–54 BMI (35.5 BMI avg.) saw a **43%** peak-pressure reduction.

Significant Time Savings

Setup time under one minute could save your OR up to \$1,900 per procedure (value of OR time: \$100/minute)

A Material Difference

Clinical leaders in the world's top hospitals trust the Pink Pad's unique, HAPI-reducing material to maximize patient safety in steep Trendelenburg

The Pink Pad® AIRCLOUD ASSIST

Safer, Easier Patient Transfer and Trendelenburg Positioning

New
Product

Integrating The Pink Pad® into both top & bottom surfaces ensures skin protection, as well as patient stability in both Trendelenburg & Reverse Trendelenburg

TRENDELENBURG
& Reverse Trendelenburg

#40660

- Lift-free transfer and repositioning for patients of all sizes
- Safely position high-BMI patients while protecting against Hospital Acquired Pressure Injuries and nerve damage
- Establish a clinical evidence-based best practice for reducing peak pressure and preventing unwanted patient movement
- Additional options available, including a full length Air-Assist EXT (20" W x 72" L)

The Pink Pad – One Step

A Safe, Streamlined, and Complete Trendelenburg Positioning System

New
Product

- Establish a best practice standard-of-care¹ with a single-step, streamlined patient positioning system
- Set up time under one minute saves your hospital up to \$1,900 per procedure*

*Based on OR costs of \$100/minute^{2,3}, and 20-minute average set up times for competitive systems

The Pink Pad – Safe Assist

The Safest, Most Clinically-Proven and Preferred Trendelenburg Positioning Solution - Now Easier to Use

- Easily transfer and position patients with integrated straps
- Safely prevent patient sliding, HAPI formation, and nerve damage in Trendelenburg positions
- Establish a clinical evidence-based best practice for reducing peak pressure and preventing unwanted patient movement

PinkProtectKits™

REVERSE TRENDLENBURG

Optional One-Step™
Arm Protectors
Available (#40433)

Multiple Pink Pad
Configurations
Available

Safely Prevent Sliding

An innovative seat contour made of high-density, supportive material ensures anatomically correct positioning, while skin-friendly PinkProtect™ safely prevents unwanted movement in Reverse-T.

Reduce Risk of HAPIs

Unique, patented materials provide complete protection against HAPIs; minimizing non-reimbursable care costs by avoiding preventable injuries and CMS Never-Events.

Reverse-T Footboard
Pad (20"x12"x2")
(#40548)

Complete Coverage for Every Patient

The Reverse-T Kit requires less than one minute to set up, while a single-use design minimizes cross-contamination risk and improves OR turnover times.

With patients **weighing 450lbs** or more, and BMIs in excess of 65, safe positioning can be a real challenge. Xodus Medical's Pink Reverse-T Kit not only prevented our patients from sliding, but did so safely.

— Alicia C, RN, BSN, Surgical Services Manager, Hartford, KY

Popular Configuration (#40640) Includes:

- 1 Pink Pad Reverse Trendelenburg Pad w/ **Posterior Support Contour**
- Large Armboards (Pair) - with DermaProx™
- 1 Lift Sheet
- 2 Sets of Skin-Friendly Body Straps
- Single-Use Adult Head Positioner
- #40548 Reverse-T Footboard Pad (20"x12"x2")

Popular Configuration (#40643) Includes:

- 1 Pink Pad XL
- Large Armboards (Pair) - with DermaProx™
- 1 Lift Sheet
- 2 Sets of Skin-Friendly Body Straps
- Single-Use Adult Head Positioner
- #40548 Reverse-T Footboard Pad (20"x12"x2")

The Pink Lat Pack™

A New Standard for Safe, Effective, and Efficient Lateral Positioning

Patent No. 8,464,720; 8,511,314; 9,161,876; 9,750,656; 9,782,287; 9,931,262; 9,949,883; 10,045,902; 10,285,890; 10,324,050; 11,484,456

Adjustable Lateral Head Positioner

Skin-friendly materials, adjustable height, and an ergonomic design make this the ideal lateral head positioner

Multi-Angle Wedge

35°, 55°, and 90° inclination options optimize positioning for every patient and procedure

#LPK10005

Safety Maximized

Increase patient safety with DermaProx™ and PinkProtect™: breathable, moisture-wicking materials that gently immerse and envelop areas prone to pressure injury.

Standard of Care Emphasized

No customization required. Regardless of weight or BMI; The Pink Lat Pack™ provides a safe, consistent standard of care for every patient, in every procedure, every time.

Efficiency Optimized

In clinical trials, an average of 15–20 minutes were saved during setup. When necessary, The Pink Lat Pack™ makes repositioning faster, safer, and easier.

"Prior to working with Xodus Medical, a solution for lateral positioning that was both safe and efficient simply did not exist. The Pink Lat Pack™ combines skin-friendly materials with smart configurations that ensure a consistent standard of care. They save our OR a significant amount of time, especially during setup. Most importantly, the safety of our patients is better than ever."

— Dr. Domenico Savatta, MD
Chief of Minimally Invasive & Robotic Adult Urologic Surgery
New Jersey

Pink Lat Pack™ Available Configurations

LATERAL DECUBITUS

The **Pink** Peg Board Kit™

LATERAL DECUBITUS

- A new standard for safe, effective and efficient lateral positioning.
- PinkProtect™ materials are immersive, enveloping, soft, breathable, and help maximize positioning security.
- Help prevent Hospital Acquired Pressure Injuries (HAPIs).
- Ultra-supportive cores distribute pressure over the most challenging positioning surfaces.

Unique high-density Peg Covers feature a seamless design that optimally balances HAPI reducing characteristics, as well as patient support and pressure distribution.

Reduce set up time, cost,
and eliminate cross-
contamination risks.

Setup time: less than
one minute.

REPEATABLE
BEST
PRACTICE

Eliminate the need
for custom, off-label
positioning solutions.

LATERAL DECUBITUS

Our Most Popular Configuration (PBK10001) Includes:

- PinkProtect™ Armboard Pads w/ Straps
- PinkProtect™ Peg Board Pad
- Peg Board Adjustable Lateral Head Positioner
- Universal High-Density Peg Covers (4)
- Skin-Friendly Body Strap and Lift Sheet

Helpful Accessories Sold Separately:

- **#40945** 3" Intra-Leg Positioner (shown at right)
- Pink Dual Layer Pads (additional protection for legs, feet, etc)
 - **#40771** (15" x 11" x 1")
 - **#40772** (8" x 11" x 1")
- PinkProtect Pink Arcs (Axillary Rolls)
 - **#40544** PinkProtect Standard Pink Arc (9" x 8" x 4")
 - **#40524** PinkProtect Medium Pink Arc (16" x 6" x 4")
- **#40549** Universal High-Density Peg Covers (case qty 16)
- **#40567** High-Density Double Peg Covers (case qty 16)

Eliminate Nerve Injury

Safely and effectively position patients without the need for a perineal post

Protection from Head to Toe

Maximize traction as well as protection against HAPIs with Hip Arthroscopy Boot Liners

Patient Safety Advantages

- Significantly reduces risk of HAPI formation
- Postless approach requires shorter traction time, makes distraction easier, and improves C-arm visualization to allow for a more complete dynamic exam
- Significantly reduces post-operative pain and recovery times
- Requires no change to surgical technique
- Allows for a greater range of motion during surgery, making complex procedures easier
- Kits available for various tables

"The nice thing with a postless system is that it truly prevents skin and nerve damage to the perineum. Hip Arthroscopy typically takes from 1-2 hours to perform, and a large amount of pressure is applied to the perineum area. That pressure can be associated with skin injury and nerve injury in as many as 30-35% of cases. If you can eliminate the post, you can actually reduce that complication rate to 0%.

— Joshua D. Harris, MD, Associate Professor of Ortho Surgery, Houston, TX

PRONE & SPINAL

Patient Safety Advantages

- Improve HAPI protection with DermaProx; a unique material that balances softness, breathability, immersion, envelopment, and moisture-wicking characteristics to create the ideal interface between patients and surgical equipment.
- Enhance pressure distribution on high-risk patient areas and bony prominences.
- Minimize non-reimbursed care costs and avoid preventable injuries and CMS Never-Events.
- Achieve a precise fit for your specific equipment with customizable kits.

"The Xodus products have greatly decreased skin redness and breakdown on the chin and bony prominences during long spinal cases. I have greater peace of mind using these products knowing that our patients are safe and better protected."

— Mary Ann Pruskowski, RN, BSN, BSHA, CNOR, Neuro
