

A Sharper View of Patient Safety

Enhanced Intraoperative Laparoscope Cleaning & Defogging

- Easily placed on any sterile field for streamlined cleaning exchanges. Can be connected directly to 5mm and 12mm trocars.
- Eliminate the need to pass instruments to-and-from the surgical site, reducing SSI risk and improving surgical efficiency.

- On/Off switch allows battery life to be synced with delayed cases; minimizing the need for multiple units per procedure.
- Thick, scratch-free cleaning material protects sensitive, costly laparoscope lenses.

Better Visualization

More effective cleaning and defogging for improved, longer-lasting visibility.

Perfect Temperature

Safe for use with modern, robotic laparoscopes. Thermostatically-maintained temperatures extend battery life and improve performance.

Eco-Friendly

Environmentally friendly, compact design. Up to 65% less packaging by weight. Easily removable batteries for recycling.

The Total Package

Every detail considered. Everything included. Unique Trocar Swabs are tailored to your trocars, and reduce retained-instrument risk.
