SEE SHARP™

A Sharper View of Patient Safety

Safer, faster, more thorough laparoscope cleaning and defogging

Easily placed on any sterile field for streamlined cleaning exchanges. Can be connected directly to 5mm and 12mm trocars.

Eliminate the need to pass instruments to-and-from the surgical site, reducing SSI risk and improving surgical efficiency.

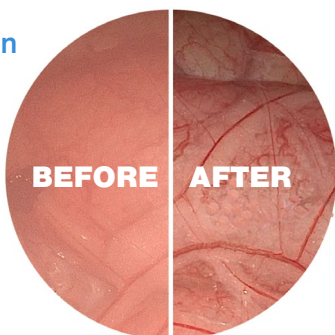

On/Off switch allows battery life to be synced with delayed cases; minimizing the need for multiple units per procedure.

Thick, scratch-free cleaning material protects sensitive, costly laparoscope lenses.

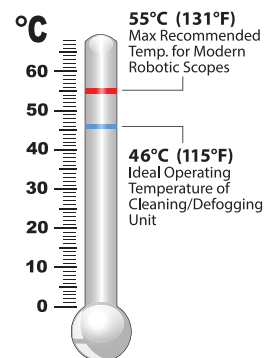

Better Visualization

More effective cleaning and defogging for improved, longer-lasting visibility.

Perfect Temperature

Safe for use with modern, robotic laparoscopes. Thermostatically-maintained temperatures extend battery life and improve performance.

Eco-Friendly

Environmentally friendly, compact design. Up to 65% less packaging by weight. Easily removable batteries for recycling.

The Total Package

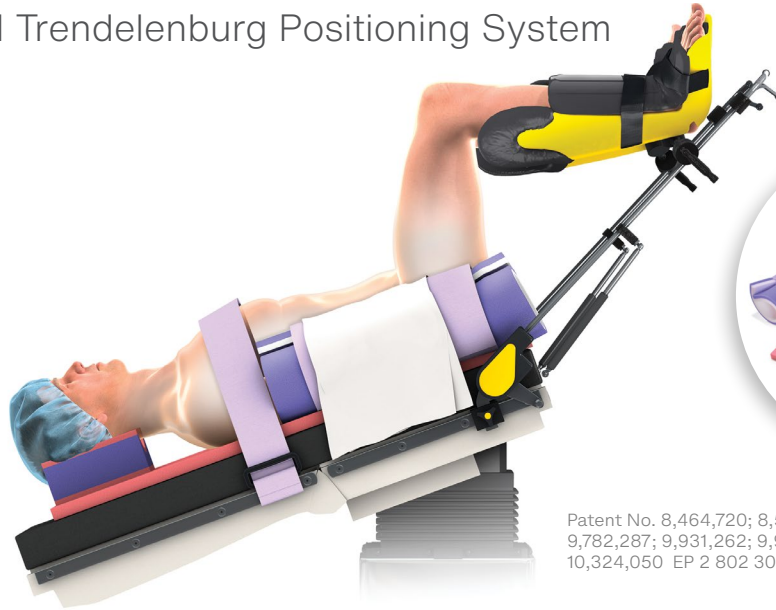

Every detail considered. Everything included. Unique Trocar Swabs eliminate retained-instrument risk. Extras just in case.

#30977

The Pink Pad[®]

Advanced Trendelenburg Positioning System

#40595

Patent No. 8,464,720; 8,511,314; 9,161,876; 9,750,656; 9,782,287; 9,931,262; 9,949,883; 10,045,902; 10,285,890; 10,324,050 EP 2 802 305 B1

TRENDELENBURG

Maximize Safety in Trendelenburg

The Pink Pad Trendelenburg Positioning System is an innovative, patented, clinically-preferred solution for increasing patient safety in Trendelenburg—preventing unwanted patient movement, while protecting nerves and skin against Hospital Acquired Pressure Injuries (HAPIs).

Safely Prevents Patient Sliding

Overcome the positioning challenges of steep Trendelenburg; even with heavy, high-BMI patients.

Utmost Protection Against HAPIs

Patented, immersive, enveloping materials are breathable, soft, moisture-wicking and insulative.

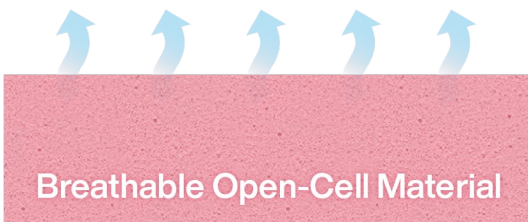

Proven Pressure Reduction

In a recent study, subjects ranging from 16-54 BMI (35.5 BMI avg.), saw an average peak-pressure reduction of **43%** on the Pink Pad.

Significant Time Savings

Setup time under one minute could save your hospital up to \$1,900 per procedure (OR time valued at \$100/minute)

Breathable Open-Cell Material

Material Difference

Clinical leaders in the world's top hospitals trust the Pink Pad's unique, HAPI-reducing material to maximize patient safety in steep Trendelenburg

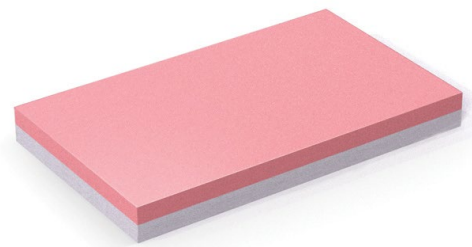

Xodus Medical is the exclusive sponsor of the **AORN Tool Kit** for the Prevention of Perioperative Pressure Injury. Scan to view up-to-date patient safety recommendations or visit xodusmedical.com/AORNtoolkit

The Pink Reverse-T Kit™

Optional One-Step Arm Protectors available (#40433)

Multiple Pink Pad Configurations Available

Also Available Separately: Reverse-T Footboard Pad (20"x12"x2")

Safely Prevent Sliding

An innovative seat contour made of high-density, supportive material ensures anatomically correct positioning, while skin-friendly DermaProx Pink™ safely prevents unwanted movement in Reverse-T.

Reduce Risk of HAIs

Unique, patented materials provide complete protection against HAIs; minimizing non-reimbursable care costs by avoiding preventable injuries and CMS Never-Events.

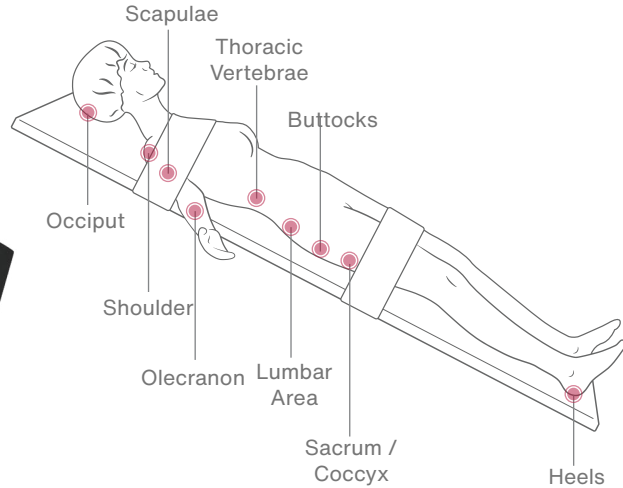

Complete Coverage for Every Patient

The Reverse-T Kit requires less than one minute to set up, while a single-use design minimizes cross-contamination risk and improves OR turnover times.

U.S. Patents:

“

With patients weighing 450lbs or more, and BMIs in excess of 65, safe positioning can be a real challenge. Xodus Medical's Pink Reverse-T Kit not only prevented our patients from sliding, but did so safely.

”

— Alicia C, RN, BSN, Surgical Services Manager, Hartford, KY

Popular Configuration: (#40640) Includes:

- 1 Pink Pad Reverse Trendelenburg Pad w/ Posterior Support Contour
- Large Armboards (Pair) - with DermaProx™
- 1 Lift Sheet
- 2 Sets of Skin-Friendly Body Straps
- Single Use Adult Head Positioner
- #40548 Reverse-T Footboard Pad (20"x12"x2")

Popular Configuration: (#40643) Includes:

- 1 Pink Pad XL
- Large Armboards (Pair) - with DermaProx™
- 1 Lift Sheet
- 2 Sets of Skin-Friendly Body Straps
- Single Use Adult Head Positioner
- #40548 Reverse-T Footboard Pad (20"x12"x2")

Surgical BackPacks™

Safe Spinal Table Positioning

- Improve HAPI protection with DermaProx; a unique, skin-friendly material that provides a soft, breathable, immersive, enveloping and moisture-wicking interface between the patient and the surgical table
- Enhance pressure distribution on high-risk patient areas and bony prominences
- Maximize patient safety while minimizing non-reimbursed care costs; avoid preventable injuries and CMS Never-Events
- Achieve a precise fit for your specific equipment with customizable kits

Maximize Skin Protection with DermaProx™ Iliac and Torso Lift Covers

#SPK10113
(Includes Four (4) Skin-Friendly Iliac/Torso Covers)

#SPK10186

ProneSafe™

Maximize Patient Safety in Prone Positioning #40599

Patent No. 8,464,720; 8,511,314; 9,161,876; 9,750,656; 9,782,287; 9,931,262; 9,949,883; 10,045,902; 10,285,890; 10,324,050 EP 2 802 305 B1

"The Xodus products have greatly decreased skin redness and breakdown on the chin and bony prominences during long spinal cases. I have greater peace of mind using these products knowing that our patients are safe and better protected."

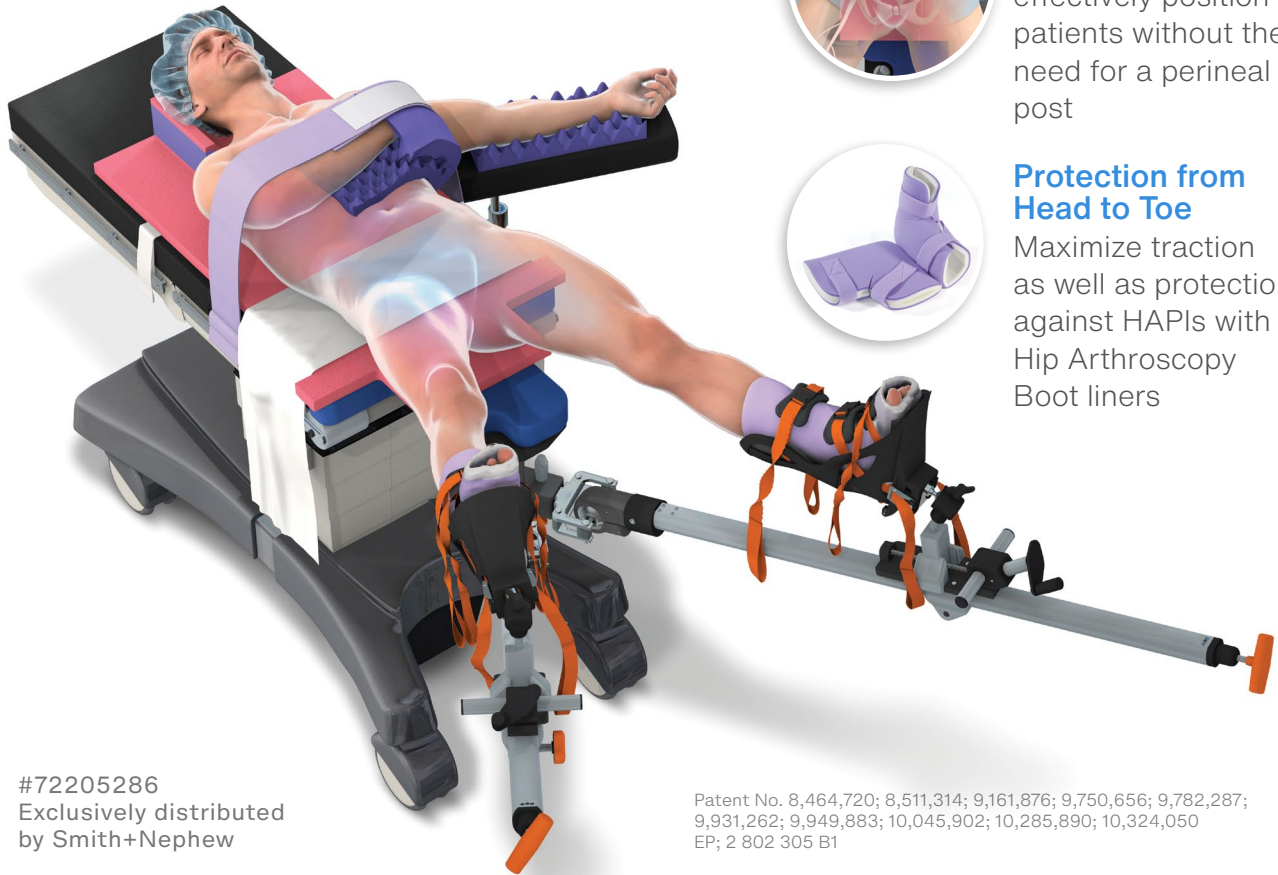

— Mary Ann Pruskowski, RN, BSN, BSHA, CNOR, Neuro

The Pink Hip Kit™

Postless Positioning System

Eliminate Nerve Injury

Safely and effectively position patients without the need for a perineal post

Protection from Head to Toe

Maximize traction as well as protection against HAPIs with Hip Arthroscopy Boot liners

HIP PROCEDURES

#72205286
Exclusively distributed
by Smith+Nephew

Patent No. 8,464,720; 8,511,314; 9,161,876; 9,750,656; 9,782,287;
9,931,262; 9,949,883; 10,045,902; 10,285,890; 10,324,050
EP; 2 802 305 B1

Patient Safety Advantages

- Significantly reduces risk of HAPI formation
- Postless approach requires shorter traction time, makes distraction easier, and improves C-arm visualization to allow for a more complete dynamic exam
- Significantly reduces post-operative pain and recovery times
- Requires no change to surgical technique
- Allows for a greater range of motion during surgery, making complex procedures easier
- Kits available for various tables

“The nice thing with a postless system is that it truly prevents skin and nerve damage to the perineum. Hip Arthroscopy typically takes from 1-2 hours to perform, and a large amount of pressure is applied to the perineum area. That pressure can be associated with skin injury and nerve injury in as many as 30-35% of cases. If you can eliminate the post, you can actually reduce that complication rate to 0%.”

— Joshua D. Harris, MD, Associate Professor of Ortho Surgery, Houston, TX

The Pink Lat Pack™

A New Standard for Safe, Effective, and Efficient Lateral Positioning

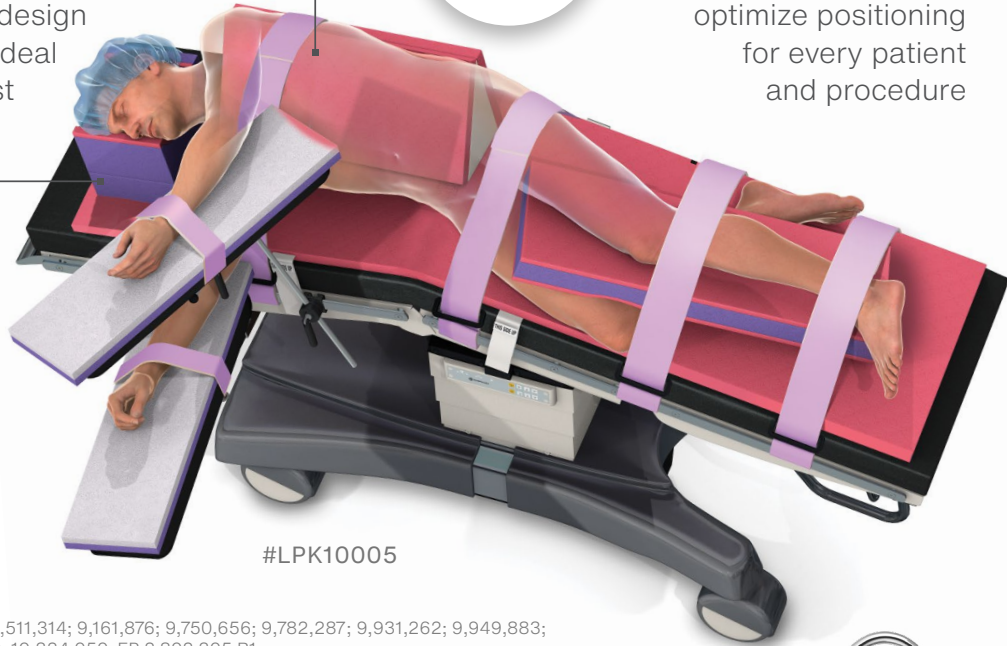

Adjustable Lateral Headrest

Skin-friendly materials, adjustable height, and an ergonomic design make this the ideal lateral headrest

Multi-Angle Wedge

35°, 55°, and 90° inclination options optimize positioning for every patient and procedure

Patent No. 8,464,720; 8,511,314; 9,161,876; 9,750,656; 9,782,287; 9,931,262; 9,949,883; 10,045,902; 10,285,890; 10,324,050 EP 2 802 305 B1

Breathable, Skin-friendly, Moisture-wicking Material

Safety Maximized

Increase patient safety with DermaProx™ and DermaProx Pink™: breathable, moisture-wicking materials that gently immerse and envelop areas prone to pressure injury.

Standard of Care Emphasized

No customization required. Regardless of weight or BMI; The Pink Lat Pack™ provides a safe, consistent standard of care for every patient, in every procedure, every time.

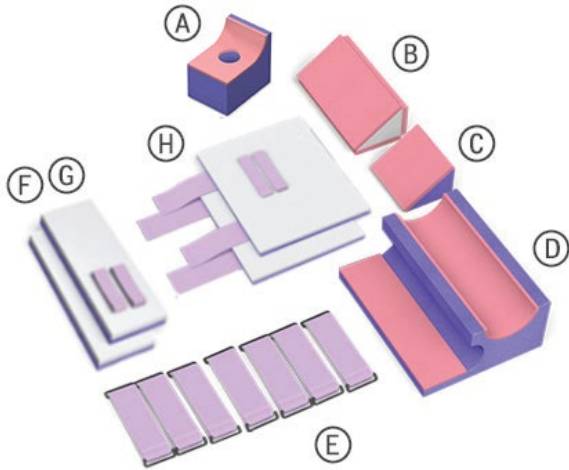

Efficiency Optimized

In clinical trials, an average of 15-20 minutes were saved during setup. When necessary, The Pink Lat Pack™ makes repositioning faster, safer, and easier.

- (H) Lift Sheet (1)

Modified Pink Lat Pack™ #LPK10006:

- (A) Adjustable Lateral Headrest (1)
- (B) Multi-Angle Body Wedge (1)
- (C) Intra Leg Positioner (1)
- (D) Skin-Friendly Body Straps (4)
- (E) Armboard Pads with DermaProx™ (1pr)
- (F) Skin-Friendly Armboard Straps (1pr)

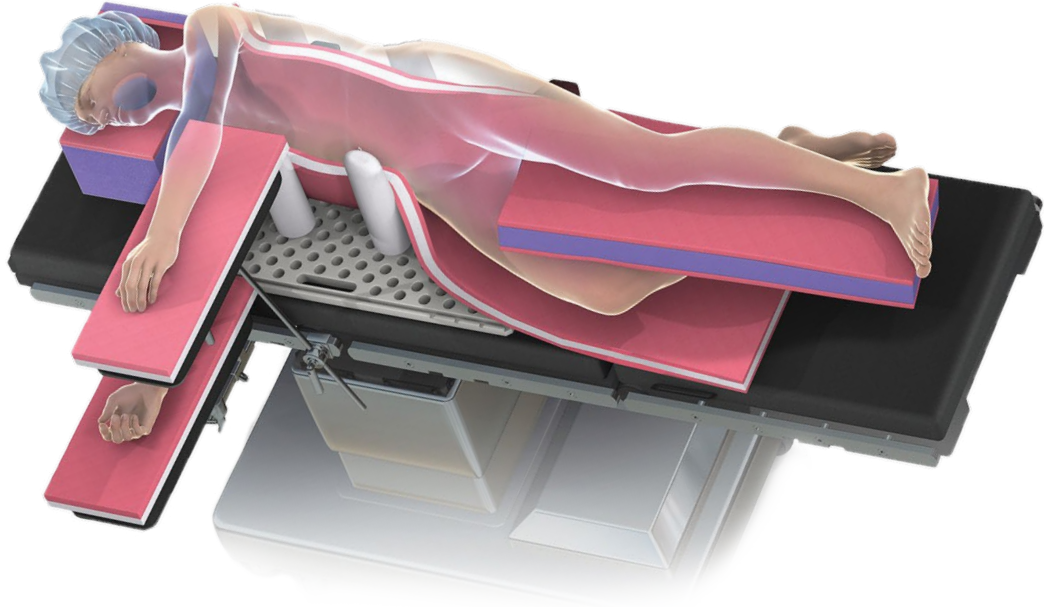

“Prior to working with Xodus Medical, a solution for lateral positioning that was both safe and efficient simply did not exist. The Pink Lat Pack combines skin-friendly materials with smart configurations to ensure a consistent standard of care. They save our OR a significant amount of time, especially during setup. Most importantly, the safety of our patients is better than ever.”

— Dr. Domenico Savatta, MD
 Chief of Minimally Invasive &
 Robotic Adult Urologic Surgery
 New Jersey

The Pink Peg Board Kit™

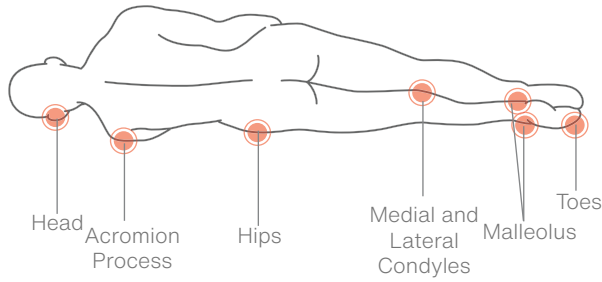

- A new standard for safe, effective and efficient lateral positioning.
- DermaProx™ materials are immersive, enveloping, soft, breathable, and help maximize positioning security.
- Help prevent Hospital Acquired Pressure Injuries (HAPIs).
- Ultra-supportive cores distribute pressure over the most challenging positioning surfaces.

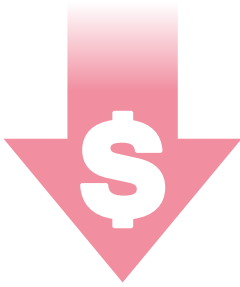

Unique, layered positioners combine skin-friendly DermaProx™ with ultra supportive, high density cores; optimally balancing HAPI reducing characteristics including pressure distribution and breathability.

Protect areas at heightened risk for Hospital Acquired Pressure Injuries (HAPIs)

Reduce set up time, cost, and eliminate cross-contamination risks.

Setup time: less than one minute.

Eliminate the need for custom, off-label positioning solutions.

Our Most Popular Configuration (#40560) Includes:

- DermaProx Pink™ Armboard Protectors w/ Straps
- DermaProx Pink™ Peg Board Pad
- Peg Board Adjustable Lateral Headrest
- Universal DermaProx™ Peg Covers (4)

Helpful Accessories Sold Separately:

- **#40945** 3" Intra-Leg Positioner (shown at right)
- Pink Dual Layer Pads (additional protection for legs, feet, etc)
 - **#40771** (15" x 11" x 1")
 - **#40772** (8" x 11" x 1")
- PinkProtect Pink Arcs (Axillary Rolls)
 - **#40544** PinkProtect Standard Pink Arc (9" x 8" x 4")
 - **#40524** PinkProtect Medium Pink Arc (16" x 6" x 4")
- **#40549** Universal DermaProx™ Peg Covers (case qty 16)

PROLONGED

PinkProtect Kits™

Pressure Injury Prevention for Prolonged Patient Positioning

Multiple headrest options available

#40784

Patent No. 8,464,720; 8,511,314; 9,161,876; 9,750,656; 9,782,287; 9,931,262; 9,949,883; 10,045,902; 10,285,890; 10,324,050 EP 2 802 305 B1

- Featuring DermaProx Pink™ – an immersive, enveloping, breathable and moisture-wicking material for the utmost protection against Hospital Acquired Pressure Injuries (HAPIs)
- Multiple materials with varying densities to deliver optimal pressure distribution
- Proven, skin-friendly positioners designed to improve patient safety throughout prolonged surgical procedures
- Unique designs tailored to the specific requirements of OR patient positioning

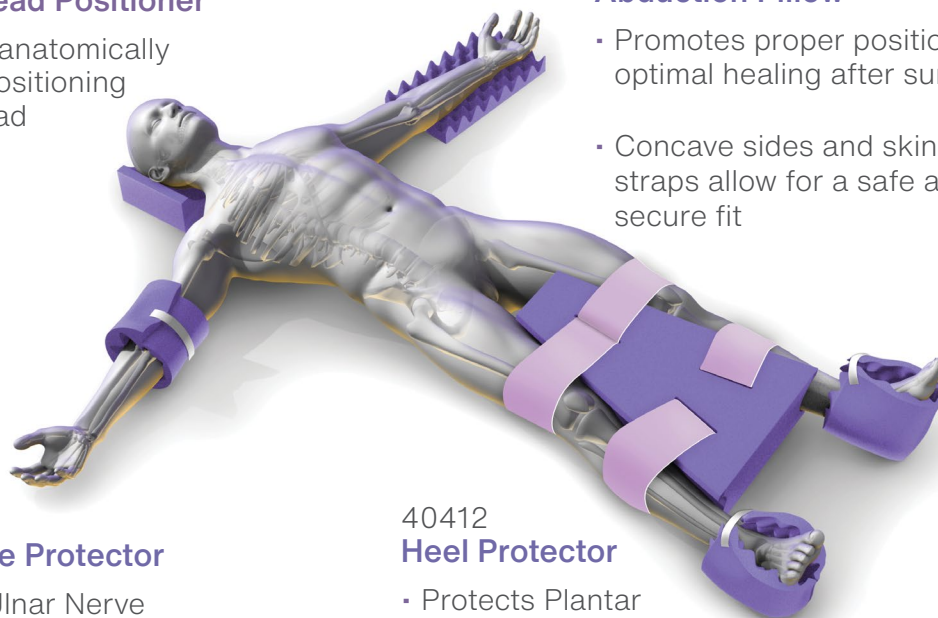

Xodus Medical is the exclusive sponsor of the **AORN Tool Kit** for the Prevention of Perioperative Pressure Injury. Scan to view up-to-date patient safety recommendations or visit xodusmedical.com/AORNtoolkit

Safer Single-Use Positioning

40404

Slotted Head Positioner

- Provides anatomically correct positioning of the head and neck

40409

Abduction Pillow

- Promotes proper positioning for optimal healing after surgery
- Concave sides and skin-friendly straps allow for a safe and secure fit

40411

Ulnar Nerve Protector

- Protects Ulnar Nerve from pressure related complications

40412

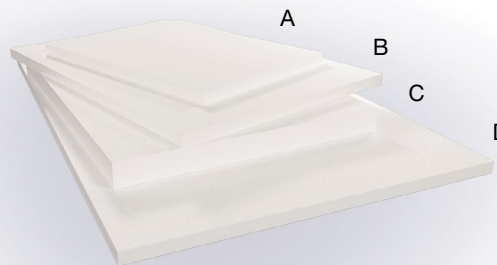

Heel Protector

- Protects Plantar Nerve

DERMAPROX™ PADS

A necessity for every pressure injury prevention program

- Meets recommendations set forth by the AORN Tool Kit for the Prevention of Perioperative Pressure Injury
- Breathable, moisture-wicking, pressure-distributing material helps prevent HAPI occurrence
- Protects skin without the use of sticky adhesives; the removal of which may cause skin tears

The Camel™ Line of Floor Protection

Solutions for maintaining clean, dry hospital floors

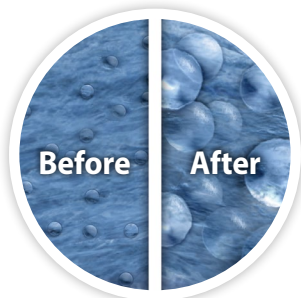

- Keeps the OR clean, dry and safe from slips
- Single-use helps infection control and reduces cross-contamination risk
- Saves money - reduces OR turnover time
- Available in different sizes and absorbency levels
- Prevents fluid from reaching the OR floor, while a non-slip backing keeps the pad securely in place

Non-Drip Disposal

The Sahara mat features a polymer material that enhances absorption and prevents fluids from dripping.

Advanced Fluid Retention Technology

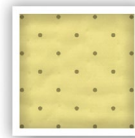

Fluid-absorbing polymer traps liquid for easy and convenient clean up.

The Gobi Standard Absorbent Mat

Prod #	Size
80510	24" x 32"
80520	32" x 40"

The Mojave Ultra Absorbent Mat

Prod #	Size
80512	24" x 32"
80522	32" x 40"
80526	32" x 56"
80524	48" x 80"
80525	48" x 80" Cutout

The Sahara Max Absorbent Mat

Prod #	Size
80532	24" x 32"
80531	32" x 40"
80530	32" x 56"

Camel® Cord Cover

Two peel strips on the back reveal residue-free adhesive that secures the cover to the floor. This feature keeps cords safely secured in place and decreases the risk of trips and falls. Available in two sizes.

#80548

The Soft Step™ Line of Floor Mats

Increasing Safety and Comfort for Hospital Staff

- Tapered channels prevent problematic puddles in the OR
- Decreases muscle fatigue
- Increases safety - keeps clinical staff comfortable
- Available in extra-long and mini sizes

Product #	Size
80543	70" x 20"
80544	35" x 20"
80545	17" x 13"

#80541

ANTI-FATIGUE MATS

“Prolonged standing during surgical procedures poses a high risk of causing musculoskeletal disorders, including back, leg, and foot pain, which can be chronic or acute in nature.”

— AORN Journal. June, 2011

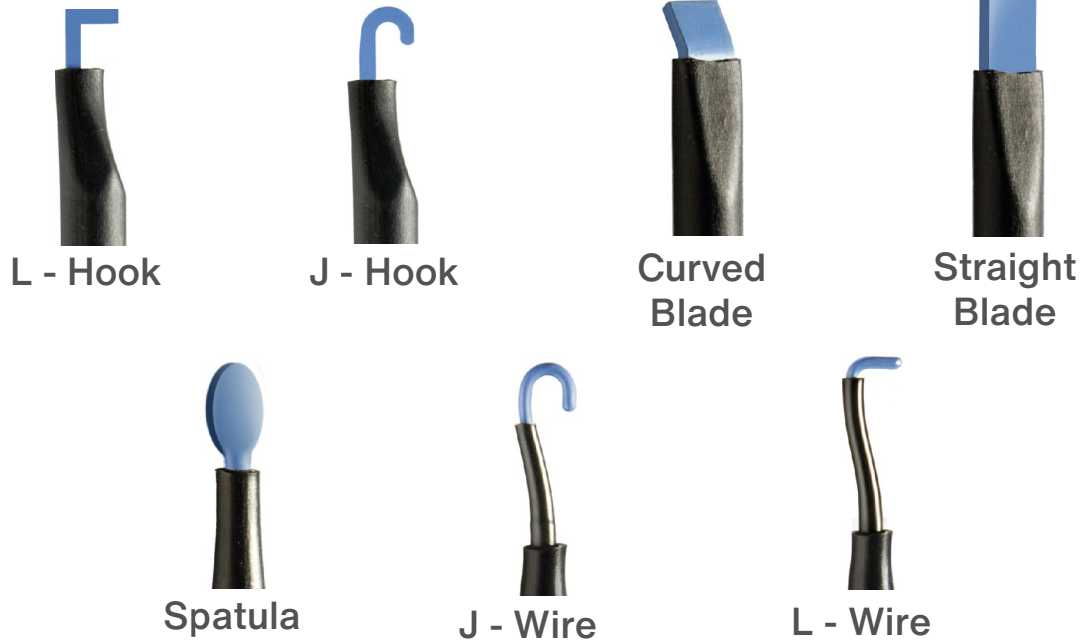

Fitted Camel Mat

Extend the usable life of Soft Step mats by incorporating single-use, absorbent covers.

- **Available in two sizes:**
#80536 - 39" x 24"
#80537 - 74" x 24"

Laparoscopic Electrodes

- PTFE coating reduces eschar buildup and easily wipes clean with a sterile sponge, saving valuable OR time
- Insulation is both high-heat and chemical resistant
- Fully-insulated shafts are individually tested, reducing the risk of stray current or unwanted burns

Pencils & Tips for Open Procedures

- Superior non-stick coating reduces eschar buildup
- Easy to clean with only a damp sponge, saving valuable OR time
- Performance is exceptional at lower power settings, helping to minimize thermal necrosis risk
- Greater precision throughout procedures
- Available with PTFE coated, tungsten, or stainless steel tip styles
- Visit xodusmedical.com for an array of options

Rocker Pencil with Electrode

Button Pencil with Electrode

2.5 cm Tungsten Micro-Needle #20072

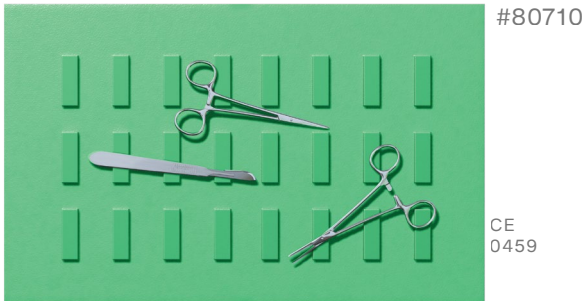

3 cm Tungsten Micro-Needle #20070

4 cm Tungsten Micro-Needle #20102

Operating Room Essentials

OR ESSENTIALS

Magnetic Transfer Drapes

- Keep instruments within reach
- Facilitate hands-free transfers

Room Turnover Kits

- Reduces risk of cross-contamination and frequency of HAIs
- Increases efficiency by reducing set up/clean up time

Medication Labels

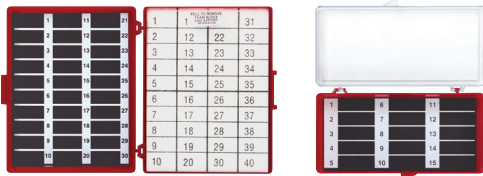

- Prevent medication errors
- Water-proof, synthetic, non-smearing, customizable

Light Handle Covers

CE 0459

- Both rigid and flexible styles available

Needle Counters

CE 0459

- Increase sharps safety
- Many styles available

Emesis Bags

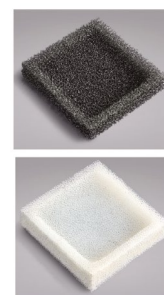

- Eliminates exposure to emesis
- Increases infection control
- Biodegradable

#NS30835

Surgical Site Markers

CE 0459

- Dual-Tip
- Regular/Fine Tip
- Correct Site
- CHG Resistant Ink

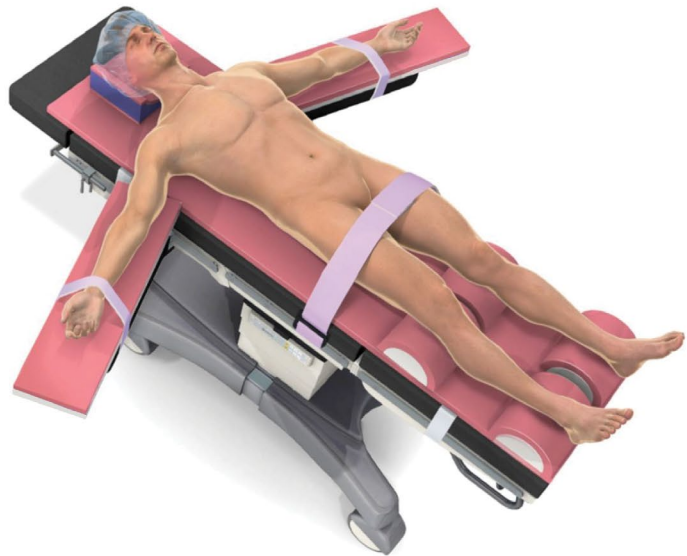

Corner Protectors

- Eliminate unnecessary costs associated with contaminated surgical trays, double-wrapping, etc. #40461-#40463
